

## Backlit PVC 5.1m

Items	Value	Unit	Test Method
Base Fabric	Polyester		DIN60001
Both Side Layer	Polyvinyl Chloride		DIN60001
Yarn	500x500	D	
Construction	18x12	sq.inch	
Weight	500	g/sqm	
Weight Tolerance	6.6% difference		
Tensile Strength (L/W)	1400/1400	N/5cm	DIN53354 or HG/T2580
Tearing Strength (L/W)	250/230	N	DIN53363 or HG/T2581
Peeling Strength	65	N/5cm	DIN53357 or GB8808
Temperature Resistance	-20 ~ + 70	°C	DIN53361
Fire Rating	B2		
Material Warranty	6 Months		
UV Resistant	Yes		
Mildew Resistant	Yes		
Production Method	PVC Material extruded to form sheets. Two sheets laminated on both sides of base fabric.		
<p>All above information shall only be used as a guide. Buyers shall independently test and determine the products suitability</p>
