

### Black White PVC 500gsm 15oz 12\*12

Items	Value	Unit	Test Method
Base Fabric	Polyester		DIN60001
Both Side Layer	Polyvinyl Chloride		DIN60001
Yarn	1000x1000	D	
Construction	12x12	sq.inch	
Weight	500	g/sqm	
Weight Tolerance	6.6% difference		
Tensile Strength (L/W)	1800/1700	N/5cm	DIN53354 or HG/T2580
Tearing Strength (L/W)	320/330	N	DIN53363 or HG/T2581
Peeling Strength	70	N/5cm	DIN53357 or GB8808
Temperature Resistance	-10 ~ + 70	°C	DIN53361
Fire Rating	B2 defined under DIN4102		
Material Warranty	6 Months		
UV Resistant	Yes		
Mildew Resistant	Yes		
Production Method	PVC Material extruded to form sheets. Two sheets laminated on both sides of base fabric. Front side white, reverse side black.		
All above information shall only be used as a guide. Buyers shall independently test and determine the products suitability
